PET HEALTH TIPS!

Tick the Season...

Flea and tick prevention is essential for your pet's health, and protection should be year-round. Fleas and ticks can thrive in any season, and without consistent prevention, your pet is at risk of infestations and diseases like Lyme disease. At our clinic, we recommend Bravecto, a highly effective treatment that provides up to 12 weeks of protection with just one dose.

For both dogs and cats, Bravecto offers long-lasting, fast-acting protection. For dogs, it kills fleas and ticks within hours and prevents further infestations for three months. For cats, Bravecto's topical treatment is equally effective, providing hassle-free protection without monthly applications. Its broad-spectrum effectiveness means your pet is protected from a variety of pests, including those that carry dangerous diseases.

With Bravecto, you can enjoy peace of mind knowing your pet is protected year-round. Stop by our clinic today to discuss how Bravecto can help keep your furry friend safe and healthy!

Patient Spotlight

MEET LUNA, THE NEWEST MEMBER OF OUR PACK!

We're excited to introduce Luna, an adorable 10-week-old Shih Tzu-Poodle mix who weighs just 2.1 lbs! This little bundle of joy is full of energy and charm, already making a big impression at our clinic. Luna's sweet nature and playful spirit make her a favorite among the team. We're so happy to be a part of her journey as she grows and stays healthy. Keep shining, Luna – we can't wait to see all the wonderful things ahead for you!

Tooth Be Told

HEALTHY TEETH, HAPPY PETS!

At our clinic, we're passionate about keeping your pet's smile bright and healthy! We know that dental care is a crucial part of your pet's overall well-being, which is why **we're offering \$100 off when you book your pet's dental procedure within 30 days of Dr. Matt's recommendation.** Don't miss this opportunity to give your pet the gift of a healthier mouth and a happier life! Call us today to schedule an appointment.

Hot Take

FROM DR. MATT

Pet owners should prioritize preventive care over emergency treatments – it's time we shift the conversation from reacting to illness to proactively promoting long-term health.

Spring Into Health

THE IMPORTANCE OF REGULAR VETERINARY CHECK-UPS FOR YOUR PET'S HEALTH!

As pet owners, we want nothing more than to see our furry friends happy and healthy. One of the best ways to ensure your pet stays in top shape is through regular veterinary check-ups. These routine visits not only help prevent potential health issues but also offer an opportunity for early detection and treatment, which can improve your pet's overall quality of life.

During a wellness exam, our veterinarians will check your pet's heart, lungs, eyes, ears, teeth, and skin, and perform routine tests to catch any potential concerns early on. These visits are also the perfect time to ask questions about nutrition, behavior, and any changes you've noticed in your pet's habits or appearance. Keeping up with regular exams helps manage ongoing health conditions and ensures your pet is up-to-date on vaccinations and parasite preventions.

At our clinic, we are committed to providing the best care for your pet. Whether it's a routine wellness check or a specific concern, we are here to support your pet's health every step of the way. Schedule your next check-up today and keep your pet's health on track for a long, happy life!

Why Bring One Pet at a Time for Wellness Visits?

Bringing one pet in at a time for wellness appointments helps us provide the best possible care. Each pet requires individualized attention to ensure their health needs are met thoroughly. During a wellness exam, we assess various aspects of your pet's health, including:

- **Physical Check-Up:** A full exam of the heart, lungs, teeth, eyes, ears, skin, and joints to detect any issues early.
- **Laboratory Tests:** Routine blood work, urine analysis, and fecal exams to monitor overall health and catch any hidden conditions.
- **Vaccinations & Parasite Prevention:** We'll make sure your pet is up-to-date on all vaccines and discuss parasite prevention tailored to your pet's needs.

To provide the best care, we ask that you bring in one pet at a time for wellness visits. When multiple pets are seen together, it divides our attention—and yours as well—which can make it harder for us to focus fully on each pet's health needs. It also limits your ability to engage, ask questions, and fully understand what's being discussed regarding your pet's care. By bringing in one pet at a time, we can dedicate the necessary time and resources to address all of your pet's concerns, answer your questions thoroughly, and provide personalized advice, helping you feel confident and informed.

Time for Your Pet's Annual Check-Up!

Let's make sure they're ready for another year of tail wags and purrs!
